Dasmariñas City, Cavite • 970-164-0723 • evangelistaangelo38@gmail.com

---

## SUMMARY

Web Designer with professional experience specializing in website building using Duda (Classic and 2.0), with strong skills in SEO setup, mobile/tablet optimization, and site migration. Experienced in front-end development using WordPress, Vue.js, and React.js from academic and project work. Recognized for consistent high-quality output, receiving two Employee of the Month awards, and trusted with "Auto Pass" status for delivering work that bypasses quality control. While I have not yet handled client communication via calls, I have effectively managed feedback through chat and am eager to develop strong client-facing communication skills along the way.

---

## WEB DESIGNER – ECLERX

Oct 2024 - Present

- Build responsive websites on Duda (Classic and 2.0), ranging from business sites to landing pages, ensuring performance, usability, and brand consistency.
